The objective of Discis is to present a **sensible** and **justifiable** standard of language use which is **readily understood** by the great majority of English speaking people around the world. While it is impractical to offer the many regional variations in speech habits, word use and pronunciation, we believe that our choices conform to the **most widely accepted principles of good usage.**

INTRODUCTION

Use these "bare bones" instructions to get a quick start with Discis Books. You probably won't require a more detailed manual, but if you would like one, please send $29.95 to cover postage and handling along with your name and address and we will forward one to you.

The instructions below assume that you are already familiar with Macintosh® computers and CD-ROM drives.

With Discis Books you have nothing to fear because you cannot break anything or lose the information. However, do bear the following things in mind:

- Avoid touching or scratching the surface of the disc
- Store the disc in a caddy or in its plastic box whenever possible
- Important: For best results, Discis recommends that Discis Books be used with an 8 bit color board. If you have a 4 bit color board, the pictures will be displayed in black and white.

FIVE STEPS TO GETTING STARTED

1. Turn on your CD-ROM drive.

2. Start or restart your Macintosh computer.

3. Place the Discis Books' CD-ROM in the caddy.
(If your CD-ROM drive does not use a caddy, refer to the drive's manual).

4. Insert the caddy in the CD-ROM drive.
Place the shutter end in first, with the disc label facing up. A window will open showing the contents of the disc.
(If you require further assistance, refer to the drive's manual.)

5. Open the Discis Books application.
To do this, click the "application" icon and choose "open" from the file menu. Double-clicking the icon will also open it. The Discis Book on the CD-ROM will open automatically.

TWO BASIC PRINCIPLES

Using a Discis Book is easy; there are just two basic principles:

1. **You can click on words, pictures, page corners and sentence speakers to make something happen.**

   For example, you can click on any word or picture element to hear a sound effect followed by a pronunciation.

2. **You can also double-click, or press and hold on words, pictures, page corners and sentence speakers to make different things happen.**

   For example, you can double-click on a sentence speaker to hear one sentence read, or you can press and hold on any word to hear a pronunciation followed by an in-context explanation.

When you first use a Discis Book it will be set to the Discis Default Settings. These default settings are listed below. To customize the book to meet the specific needs of your student(s) or child(ren) use the customize menu. By using the customize menu you can easily change the default settings and save your own new settings.

	Single Click	**Double-Click**	**Press and Hold**
Words	Sound Effects Pronunciation	Pronunciation Syllables	Pronunciation Explanation
Pictures	Show label Sound Effects Pronunciation	Show label Pronunciation Syllables	Show label Pronunciation
Sentence Speakers	Read rest of Book	Read sentence	Phrased Reading
Page Corners	Show page turn Music	Show page turn	Show page turn Read rest of Book

ADJUST THE VOLUME

A volume box appears automatically to enable you to adjust the volume of the Book at any time.

1. Click "Test" to hear the current sound level.

2. Click the Volume knob and drag it up or down to increase or decrease the volume.

3. Click "OK" to close the Volume box.

You can interrupt the sound at any time by clicking in the margin at the left of the text.

PREVIEW OTHER DISCIS BOOKS

In addition to your complete Discis Book on the CD-ROM there are a number of preview books which are short excerpts from other Discis Books that are available.

1. Choose "Open Preview..." from the Book menu.

It is not necessary to close the Discis Book that you have been working with. A dialog box will appear.

2. Select a Preview Book.

Make sure you are looking at the CD-ROM drive; keep clicking on "Drive" until you see the Discis Book title that you were working with.

3. Click "Open".

The preview books operate in the same way as any other Discis Book. Some of the books will include examples of other second languages available.

To close a Preview Book, you can either return to the original Discis Book or open another Preview Book.

To return to the original - choose "Close" from the Book menu.

To go to another Preview Book - choose "Open Preview...".

HELP

If you do not click the mouse, you will hear the voice of "Help" introducing you to Discis Books. Help will tell you everything you need to know to start using Discis Books.

Go ahead and experiment - just point to anything on the screen and Help will tell you about it. Or, you can turn help off and explore the book on your own.

- Help appears in the menu bar as a question mark (?). To turn Help on, choose "Turn Help On" from the Help menu.

Now it is time to take part in the incredible experience of Discis Books. Enjoy!

SUGGESTED ACTIVITIES

- Read other books by Robert Munsch, including the Discis Books Thomas' Snowsuit and Mud Puddle.
- Read some classic fairy tales, including the Discis Book Cinderella.
- Write and illustrate your own fairy tale with a friend.
- Create you own dragon. Use paper, wire, fabric and paint to make the dragon in the story. Give your dragon a name.
- Decorate your own paper bag with logos, coats-of-arms, etc. to describe your own characteristics.
- The dragon's cave door had a huge door knocker. Design door knockers for the dragon's door, Elizabeth's castle, and Ronald's castle.
- Using lego, table blocks, or large blocks, design the castle where Elizabeth lived.
- Use the blocks to design other castles from familiar fairy tales (eg. Snow White and Sleeping Beauty)
- Teacher / Parent Questions:
  What happened to Elizabeth's castle?
  Why is the story called The Paper Bag Princess?
  How did Elizabeth rescue Ronald?
  Why didn't Elizabeth and Ronald get married?

NO QUESTIONS ASKED WARRANTY AGREEMENT

Discis Knowledge Research Inc.
will replace any "Discis Book" found to be non-operational due to manufacturing defects.
However, we go beyond this with the Discis special

"NO QUESTIONS ASKED" WARRANTY.

For a period of one-year after the purchase of any "Discis Book", Discis will replace that disc no matter how it was damaged. Step on it? That's ok. Kids played baseball with it as second base? That's ok. Simply send your damaged disc and money order for $6.00 (to cover postage and handling) to:

Discis Knowledge Research Inc.,
NYCCPO Box #45099
5150 Yonge Street
Toronto, Ontario, Canada, M2N 6N2.

We will send you a new replacement disc.
Remember - to qualify for the
"NO QUESTIONS ASKED" WARRANTY,
you must return your warranty card within 15 days of your purchase.

WARRANTY CARD

To validate your warranty please complete this card and return it to us within 15 days of purchase.
